29 June 2017

Mr. Paul Fearon  
Director of Energy Safety  
Energy Safe Victoria  
Level 5, Building 2  
4 Riverside Quay  
SOUTHBANK VIC 3006

Dear Mr Fearon,

#### **CM-7001 HV CUSTOMERS AND REFCL PROTECTED NETWORKS**

Further to your correspondence of 23 June 2017, advising that Energy Safe Victoria (ESV) has commissioned a survey to examine the factors that may create potential safety risks when high voltage (HV) customer sites are supplied by rapid earth fault current limiter protected networks, and the copy of the final report "Customer Assets Directly Connected to REFCL Networks: A Preliminary Risk Survey".

I advise that United Energy has no HV customers supplied from our Mornington (MTN) or Dromana (DMA) zone substations where we plan to install REFCLs.

United Energy is committed to the safe, efficient and reliable supply of electricity and the continual improvement of electricity safety management.

Please direct further queries in relation this matter to Mike Tshaikiwsky on (03) 8846 9807 or [mike.tshaikiwsky@ue.com.au](mailto:mike.tshaikiwsky@ue.com.au).

Yours sincerely,

A handwritten signature in blue ink, appearing to read 'Mark Clarke'.

Mark Clarke  
General Manager Electricity Networks
